REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a cable comprising at least one optical fiber and at least one covering layer and method of producing same, said covering layer comprising an organic compound being selected from polymers, monomers, and oligomers and a composite material in the form of particles essentially as claimed. Said particulate composite material including an inorganic compound that is (i) graphite or an inorganic oxide, (ii) has a layered structure, and (iii) has been treated to allow a partial amount of the organic compound to be inserted between the layers of the organic compound and wherein a partial amount of said organic compound is inserted between the layers of the inorganic compound. Fomperie et al. 6,674,009 B2, is not prior art to the present application by virtue of its later filing date and differs from the present claimed invention in that the present claims do not require usage of a metal compound to treat the inorganic compound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill M. Gray whose telephone number is 571-272-1524. The examiner can normally be reached on M-F 10:30-7:00.
